

My name is Kevin Dalcourt with BDK Management we manage 11 artist.
Our artist has written over 562 songs combine. We have International,
National and Local artist. Our major artist has written #1 hits our local
artist deep fan base in the area

We have relationships with radio stations in metro markets and small markets

Please define local programming

Define what it should include

Anything the involves that area

Yes

I know here in Lafayette, Louisiana for our local artist the DJ will engage
them after a concert and say your song is hot I will break it in for \$400 a
month. I think any form of payment is wrong it does not level the playing
field.

DJ should live in the area with the exception of syndication

We know because of these national playlist our local artist will never get
on these radio stations. I strongly recomend a local play list so all artist
may have access to theses stations

Yes

Thank you.
